Comparison of Relative Effectiveness vs. Accuracy

Legend:
- Feature hashing (red circle)
- PCA (blue triangle)
- Differential privacy (green square)
- Impurity greedy on both (cyan diamond)
- Impurity greedy on source (magenta star)
- Impurity greedy on threat (yellow pentagon)
- Privacy score (Entropy) (black X)
- Utility score (Mutual Info) (orange diamond)
- Privacy-utility tradeoff (green circle)
- SHAP greedy on both (dark blue plus)
- SHAP greedy on source (teal hexagon)
- SHAP greedy on threat (pink square)

X-axis: Prediction Accuracy After Feature Minimization
Y-axis: Relative Effectiveness
